

THE ELEMENTS

by JS

Chenin Blanc

W.O. WESTERN CAPE
South Africa

THE ELEMENTS is named after the 3 most important factors at the origin of this wine: Soil, climate and peoples.

CLIMATE: The Cape's winegrowing regions are influenced by one of the two mighty oceans which meet at this southernmost tip of Africa: the Atlantic and the Indian oceans. Combine beneficial maritime influences like regular coastal fog and cooling sea breezes with a moderate Mediterranean climate

SOIL: Sandy soil, derived from Table Mountain Sandstone, with low nutrient and water-retention properties

PEOPLES: The Elements wines combine a winemaking tradition and history dating back over 350 years (the elegance of the Old World) with the accessible fruit-driven styles of the New world

EYE - Brilliant with a bright golden hue. Light green.

NOSE - Reminiscent of ripe fruits, especially apricots and white peaches. As the wine opens up, floral and citrus notes become more prominent, together with hints of spice. Intense aromas of sweet-melon, gooseberry and kiwi with lovely citrus undertones.

PALATE - Layers of fruit on the palate with a crisp acidity and a creamy texture. A well-balanced wine with delicate layers of stone fruit and citrus undertones. The wine has a fresh finish with lime notes towards the end.

Ageing potential : 2 -5 years

Serving Temp. : 8°C to 10°C
